# Epilogue...

Long time no see!

It's the long-awaited 5th volume of *Maya-James* ~ (^.^) ~

I liked the last part all the *Shikoku* arcs special! In this volume

For those of you wondering "why did Shirokawa Kisei leave?" Please read the *Shikoku* arc as well (Shameless advertising). In this volume I draw the "Kiss Incident" in Maya-James's perspective ~ "James's jealousy" It was fun thinking about what would drive James mad seeing as he usually doesn't really get jealous of the popular Maya. No matter how long-drawn the 2 of them are, I wondered what James would think if someone who Maya is really into suddenly appeared, since Maya seems like the type to have no interest in anyone else.

I also thought that in terms of homosexual couples, would their relationship change between the two lines of a lover and a close friend? It was fun drawing the usually clueless James to be shocked and stirred ~

(Although it seems like there were many readers who got away too ^^) And the one who made James uneasy, is none other than the new character Ruka.

I still haven't established what kind of a character he really is but I'd like to draw him here and there in the future.

In the main story there were pretty much no sex scenes so in this volume I draw a sex scene with the concept of "Maya becomes an adult but he will still be useful to the person he likes after all" is what I'm happy if you enjoyed the Maya who becomes super petty when it comes to James.

By the way, in chapter 2 I incorporated a little game.

Did you notice? Hehehe

\*I've in chapter 2 there's a CG code on one of the scenes in the library scene, and the code leads to a list of you events.\*
